ABSTRACT

Mount Besek is a Nature Tourism which is located on the border of Plosorejo Village and Bulegan Village, Kismantoro District. It is called Mount Besek because there are clusters of stone that are shaped like baskets or traditional wooden food containers. What's special about Mount Besek is the beautiful panorama around it. The purpose of this study is to determine the developments that have occurred on Mount Besek, where tourists must adapt to the era of new habits during the covid-19 pandemic. In writing this scientific article, the method used is a qualitative method, in which the data sources used are the result of observations, interviews, and documentation. Data processing techniques are reduction, data presentation, verification and triangulation. From the data analysis that has been done, it can be concluded that Mount Besek requires all layers of element starting from the government, managers and the community itself.

Key Word : Mount Besek, Natural Tourism.
