

## **CHAPTER IV**

### **CLOSING**

#### **A. RESUME**

From the results of the research that has been done in the attractions of Bokori Island in Konawe District of Southeast Sulawesi, the author can draw conclusions based on the results of the analysis and discussion that has been done, then the conclusion to the management strategy of Bokori Island tourist attraction to increase the number of tourists in Konawe District Southeast Sulawesi as will the author describe below.

The management of Bokori Island tourism attraction in this case the government as the main driver has many roles in the construction of supporting facilities in Bokori Island including the lack of access, inadequate facilities, and things that support the beauty of the panoramic view of Bokori Island. The government is also expected to increase the level of tourist visits through optimal promotion.

Human resources are the main factor, human resources in Bokori Island are quite good and willing to cooperate with the government to improve the visit and management. This is because most people are already aware of the positive impact of conscious tourism for their financial life.

#### **B. RECOMMENDATION**

After doing research directly on the object of Bokori Island of Konawe Regency, Southeast Sulawesi on 17 October 2017 to 30 October 2017, the author gives some

suggestions on the management of Bokori Island tourist attraction to become a leading destination among them as follows:

1. There is no public transportation to the dock crossing Bokori Island as well as access to the dock Bokori Island is still in need of repair. Than of that matter the author advice and hope that the government immediately fix any shortcomings as already written above. Thus, if public transportation is available and access to the docks crossing Bokori Island is good, it will attract more tourists and Bokori Island become the leading tourist attraction in Konawe District, Southeast Sulawesi.
2. So far, the government is the main driver in the management of Bokori Island tourist attraction. This is based on interviews that author do with the provincial government of Southeast Sulawesi, especially the tourism office and the community around Bokori Island. Thus expected by the author and the entire community around Bokori Island for the government to involve the community in the management of Bokori Island.
3. The people around Bokori Island have good human resources and are able to cooperate in the management and preservation of Bokori Island as a heritage owned by Konawe District. Thus, the author expects the community to continue to increase the cohesiveness and to avoid all things that cause violence that can harm the community in that area.
