CLOSING

A. Conclusion

The local wisdom is part of Balinese culture is and identity and a character of Bali must be maintain to make this a suistanable culture even many threat which can destroy moreover by the western.

Local wisdom is very supportive in the development of tourism in Bali. Even become a potential strengthening tendency of tourism potential in the future. The rapid influence of globalization has not been able to undermine the strength of the Balinese in maintaining the existence of a noble culture.

Culture and local wisdom become one of cultural strategy choice to minimize the impact of globalization even become culture of domination of mass culture dominated by developed countries.

The government has big role as part to maintain the culture. By how they support and give facility for society to do the tradition. And event as the sponsor for tha traditional event.

B.Proposition

1. Increased the government's performance to maintain the culture like give more facility and more active to held a traditional event without ignore the tourist needs but must be balanced with the local wisdom.
2. Balancing the local wisdom between the innovation in the toutistic place morever in the holy place like in Pura.
3. Giving the knowledge to the tourist like making a brochure or guide book and give an attention about something that tourist can or can't do.
